INFORMATION ON THE INSTALLATION OF THE TOP BLOCK SETS

The manufacturer assures that the buyer has purchased a quality product that has been manufactured according to the state of the art. The Top Block accessories are relatively easy to install. If in doubt, please contact your local motorbike workshop for assistance.

The user is informed that the installation of the accessories may cause accidents if not carried out as prescribed.

The roller or pad and fixing unit cannot protect against serious falls and the manufacturer declines all responsibility in the event of damage to the motorbike. In case of doubt, it is recommended to consult the dealers for the installation modalities of the TOP BLOCK kits. The TOP BLOCK kit only fits the type of machine for which it is intended.
