

Anti Squeal Paste

10071073

The anti squeal paste / ceramic paste can be used for the whole brake system (bolts, pins, ...). It will avoid squeaking and does not contain copper, so it can also be used safely with ABS brake systems.

High-performance copper paste 100g. Resistant -30C to +1300C. Cold, heat and sea water resistant. An absolute must when you install new brake pads.

Without ABS --> copper paste.

With ABS --> anti-squeak paste / ceramic paste
