

Rubber Grips

Our rubber grips improve the rider's riding pleasure and safety. They reduce vibrations and have an outstanding material quality. They are resistant to weathering influences, UV and ozone.

Sold in pairs.

Length: 125-130 mm or 5 1/8"

Open-ended grip, compatible with handlebar ends.

Attention: Do you have heated grips or not?

The mounting of the rubber grips is not easy, especially on motorcycles with heated grips.

In the event of improper handling, the heated grips can be damaged / cut through when removing the old rubber grips.

This danger exists especially with fully glued rubber grips.

The replacement of the rubber grips is at your own risk. We accept no liability for any damage to the motorcycle.

If in doubt, please have the rubber grips replaced by a specialist workshop.

Art-Nr.: 01690/F

28,90 EUR

Rubber Grips (Inner diameter 1x 22mm and 1x 24mm) (2 pieces)
