

## Handlebar risers R1200R 2011-2014

This handlebar riser for your BMW R1200R 2011-2014 lets you sit up straighter and be more comfortable on longer rides. You'll notice a definite decrease in the stress on your wrists and shoulders. Your trip will be safer; you'll arrive more relaxed.

The riser is installed between the handlebars and the upper fork brace. The longer screws required are included. Also referred to as handlebar risers, handlebar height increase, bar back risers, barbacks.

### Materials:

- Made of aluminium
- Silver anodised
- High-strength, galvanised screws

### What's included:

- Handlebar riser, 20 mm high on the left and right
- Longer mounting screws
- Installation instructions
- Technical component report

-To ensure a safe, tension-free complete installation, it may be necessary to install a longer brake line!

-The appropriate Stahlflex steel-braided brake line is also available, see 01-610-5365-0.

Only fits for R1200R with ABS!
