

Licence plate bracket stainless steel adjustable

This adjustable licence plate bracket is made of high-quality stainless steel. You can adjust the width from 18 to 28 cm. The height of the licence plate is 20,3 cm.

Long slots are milled into the licence plate bracket, which make it possible to mount it on all motorcycles.

ATTENTION: Width 18-28cm and height 20,3cm are the sizes of German license plates! Foreign license plates have usually different sizes!

Install Instruction

Also referred to as registration plate bracket.
