

ZTechnik Mirror Extenders

Give yourself a better view of the road and the vehicles behind you! ZTechnik mirror extenders move your bike's mirrors out an additional 2 inches (52mm) on each side, allowing you to see more easily past your shoulders, your passenger and your gear. This is a great 5-minute do-it-yourself upgrade that you'll appreciate!

Laser cut 3-gauge (.25-inch) steel

Mounts into existing mirror holes. Holes are pre-tapped for new mirror location. All hardware included.

Art-Nr.: Z5300
