

USB-Socket Outlet

USB socket outlet for mounting without adapters which use lots of space and are not really handy.

This USB socket outlet can be mounted onto your handle bar or frame by means of cable ties, or onto any plane surface by means of double-faced adhesive tape (not visible e.g. under the fairing or under the seat).

Technical details:

Input 12V DC

Output 5V DC 2A

3mA electric power consumption during continuous operation

Shipping:

USB socket outlet

Waterproof with cable 1,2m

2 cable ties

Fuse 5A

IMPORTANT: When you stop riding the bike - your battery can discharge! Use a proper battery charger when you don't ride for a longer time (>14 days).

Art-Nr.: **USB2**
