

Battery Switch

BA18 is a fully insulated battery master switch for bikes, scooters and quads. In long standing intervals it prevents the battery discharge through permanent power consumption such as board computer, watch, USB sockets, ...

In addition, the battery separation can also be an additional theft protection.

- Flexible mounting between battery (-) terminal and vehicle
- Fully insulated
- Max. 160A – 12V / 10 sec.

Dimensions:

Length 62 mm, Width 25 mm, Height 38 mm

Cable: 200 mm

Art-Nr.: BA18
