

## ZTechnik Windscreen

ZTechnik® revolutionizes windscreen performance! The advanced 'V' shape and dimensional contours push the wind vortex out and away from the rider's helmet, resulting in a peaceful, quiet environment. This improvement is notable for the passenger as well.

VStream windshields are made from tough Quantum hardcoated polycarbonate. This high-quality material, along with state-of-the-art manufacturing techniques, provides these windscreens with outstanding clarity and strength characteristics unmatched by any windscreen maker worldwide. Optically, the VStream windscreen is clear with virtually no distortion (unlike the hallucinogenic views you get from the stock screen).

VStream Windscreens are 30X more scratch resistant and have 20X greater crack and impact resistance than other aftermarket windscreens on the market made from commonly used acrylic or "aircraft plastic".

Also referred to as windshield, windscreen, shield, screen.

4.5mm Quantum hardcoated polycarbonate.

### Install Instruction

<b>Art-Nr.: Z2373</b>	<b>239,90 EUR</b>
Dark tinted, Height 40.6 cm, Width 44.7 cm	
<b>Art-Nr.: Z2374</b>	<b>269,90 EUR</b>
Light tint, Height 48.2 cm, Width 47 cm	
<b>Art-Nr.: Z2375</b>	<b>279,90 EUR</b>
Clear, Height 55.9 cm, Width 48.2 cm	

Additional pictures:

Z2373

Dimensions:  Height: 16.00" (40.6cm)  
Width: 17.63" (44.7cm)  
*Measured vertically from the bottom center edge to the top of the screen, and horizontally across the back at the widest point.*

Z2374

Dimensions:  Height: 19.00" (48.2cm)  
Width: 18.50" (47.0cm)  
*Measured vertically from the bottom center edge to the top of the screen, and horizontally across the back at the widest point.*

Z2375

Dimensions:  Height: 22.00" (55.9cm)  
Width: 19.00" (48.2cm)  
*Measured vertically from the bottom center edge to the top of the screen, and horizontally across the back at the widest point.*
