

Front fairing "90S Style" incl. windshield

This Front Fairing is made of high quality Carbon Fibre, which is usually only used in motorsports. The product comes with an ABE that means it is homologated for street use. The front fairing in the style of the R90S comes with a windshield and offers an even better wind protection. The carbon fairing also emphasizes the design of the RnineT.

For an easy mounting, please also order our mounting kit VHK.014.NINET.K.
