

ZTechnik Mirror Extenders

Give yourself a better view of the road and the vehicles behind you! ZTechnik mirror extenders move your bike's mirrors out an additional 2,75 inches (70mm) on each side, allowing you to see more easily past your shoulders, your passenger and your gear. This is a great 5-minute do-it-yourself upgrade that you'll appreciate!

Laser cut 3-gauge (.25-inch) steel

Mounts into existing mirror holes. Holes are pre-tapped for new mirror location. All hardware included.

Art-Nr.: Z5304
