

SHARK DSX-10 exhaust

The SHARK DSX-10 slip-on exhaust impresses with its conical pentagonal design as well as with its throaty, aggressive sound. The silencer is made of coated stainless steel and is assembled with a screwable mount. The db-killer is removable and the original catalyser will be preserved when mounting the silencer.

Colour: matt black

Height: 135mm

Width: 105mm

Length casing: 360mm

Total length: 435mm

With European street homologation!

For Euro 4!

Attention: It is forbidden to use exhausts without dB-killer in public traffic!
