

Front Brake Discs

Cool design, the finest high technology, with TUV, and all for an affordable price. After extensive testing and successful application in motor sport, we're introducing the new Lucas Alien brake disc to the marketplace. The Lucas brake discs are eye-catching at first glance, but behind the elegant design there is really solid performance. The basic material used for the Lucas brake discs is a high-strength steel alloy to the standard 35 HRC.

Scope of delivery: 1 brake disc

Fits for:

BMW R1200RS

ATTENTION: If you have riveted brake discs, then you need brake discs with article number endings FS (floating system). Please check which brake discs you have installed before you order! You can see all sizes and details of your TRW/Lucas brake discs on the pictures.

Attention: For MST 356 and MST 356RAC, please order also the Fitting Kit MST14FK if the original parts cannot be dismantled / used.
