

Luggage rack

This minirack is a slim, light and inconspicuous luggage solution. Soft luggage can be individually attached to the rear of the motorcycle and lashed thanks to the side slots of this luggage rack. The minirack has a high quality powder coating and a solid construction. A street homologation is not necessary.

Not suitable for a topcase!

Recommended load: 3-5kg (please note the vehicle-specific information, the enclosed assembly instructions and motorcycle manufacturer information).
