

## Top case V58 Maxia 5

This modern top case has a capacity of 58 liters and is available in the colours black and titan with transparent or red reflectors. Its optimized weight of only 5.4 kg, the aerodynamic design and the high durability of the components make the top case a must-have for everybody who likes to go on long motorcycle tours. The Maxia 5 top case has enough space for two large-sized modular helmets and has an improved system for opening and closing- comb hinges with stops replace the retention cables and applying slight pressure to the lid allows for soft and controlled closure. An elastic strap and a soft mat applied to the base of the top case prevent transported items from being damaged by moving around and rubbing against each other inside the top case. Moreover, the top case has an elastic net which is anchored to the base with four dedicated hooks.

A black foam rubber backrest for the passenger is available separately as an optional accessory.

A motorcycle-specific monokey top case holder is required for assembly (see item SRA5117 / FZ5117)!

Note: It is possible to retrofit up to three GIVI cases (side cases / top cases) with the same lock, so that only a single key is required to open and close the different cases. This 3-piece lock set can be ordered under item number SL103. The locks must be replaced by the customer.
