

Disc Lock 5mm

Thanks to its compact dimensions, this brake disc lock is the ideal companion on all trips. It is made of robust, impact-resistant materials and can be operated with one hand thanks to its automatic locking mechanism. The integrated dust cap protects the locking cylinder and the eye-catching yellow color ideally prevents you from forgetting the disc lock on the vehicle when driving off. Including transport bag with Velcro fastening loop.

Locking bolt: 5 mm

Dimensions: approx. 65 x 76 x 33 mm

Slot length: 40 mm

Slot height: 6 mm

Weight: approx. 360 g

We recommend the reminder cable (item no. rkrem) as a useful addition so that you don't drive off without first removing the brake disc lock.
