

## Hardened display protection foils

These hardened, precisely fitting protective films for the central TFT display are scratch- and shock-resistant as well as liquid-repellent and thus ensure optimal protection of the Connectivity display. The set includes a glossy (clear, high-contrast view) and a matte (clear, glare-free and anti-reflective view) screen protector.

Scope of delivery:

- Hardened screen protector matte (0.4 mm) and glossy (0.3 mm)
- 2 damp cleaning cloths
- 2 microfiber cloths
- 2 dust removal stickers
- scraper
