

USB-C angle plug for motorcycle socket

This USB-C plug is an adapter for the adaptation of various on-board DIN sockets (BMW motorcycle sockets) 12V to the 5V USB standard. The right angle housing allows connecting the plug to a side socket while driving.

- Small size
- Right angle adaptor
- Splashproof
- 3.6 A power with Quickcharge function
- 44 x 42 x 22 mm

IMPORTANT: Please take the adapter out of the socket, when you stop riding the bike - otherwise your battery can discharge! Or use a proper battery charger when you don't ride for a longer time (>14 days).

Also referred to as USB adapter, USB plug-n-play socket, plug & play USB power outlet.

Art-Nr.: USB19
