

Key fob R1300GS Adventure Trophy

This high-quality key ring shows your R1300GS Adventure Trophy as a motif. It is an imitation leather tag with a pin showing the motorcycle. The key fob has a Velcro strip on the back. With the help of a supplied Velcro point, which can be stuck near the ignition lock, the key fob can be fixed in the cockpit while driving (insert the key beforehand to check where the Velcro point has to be stuck).

Other motorcycle models on request.
